Dear Brayton:

Many thanks for your note of 15 July.

I am sorry about Eniwetok but possibly we can work that out later.

I wish I could get to Carmel but at the moment I find little chance of getting anywhere except in the near neighborhood of this desk.

Sincerely,

S

Dear Allen:

Belatedly, thanks for your efforts regarding my desire (abounding curiosity) to witness the nuclear test at Eniwetok. I realize that this was a difficult quest but had, somehow, understood it was going to be much more general this time and, for that reason, exercised such temerity to ask.

We wish it were possible for you and Mrs. Dulles to spend several days at Carmel this Autumn. It is the simple life in an attractive place.

Meantime, kindest regards.

Sincerely,

BLW
